

OMNIA RED is specifically designed for telcos MSPs & ISPs, who not only benefit from deploying OMNIA within their own business but can create lucrative revenue streams by providing the solution to customers, reducing costs and complexity whilst helping them meet data and network compliance.

OMNIA is an advanced, affordable suite of network and cyber security technologies from ATOMNIA's world-class ecosystem, including Check Point, Thales & Console Connect. Available as a complete solution, in scalable modular components or as a pre-built bundle, OMNIA will power your business and empower your customers, fostering loyalty and creating multiple sales opportunities.

Start with ultra-fast SD-WAN, add security to make it SASE, then you, or your customers, can choose when or if to add defence-grade data encryption, AI-driven XDR, secure access to IoT & multi-clouds, & Zero-Trust remote access options. All integrated, managed & supported for you.

BE disruptive

Next-Gen Solutions Delivered Your Way, For You & Your Customers

Every OMNIA solution is different, as every solution is designed to seamlessly integrate your choice of OMNIA's scalable components, keeping you and your customers ahead of the curve and the latest cyber threats.

With white-label, referral and reseller options, you'll deliver world-leading technologies to customers of every size, with our experts closely collaborating and upskilling your team, so your brand is always front and centre for your customers.

We've made it simple to become a credible supplier of cutting-edge connection, protection and detection solutions that vastly reduce costs & complexity for all. Choose what you need now, expand your offer at your own pace.

OMNIA Benefits At-A-Glance

Unlock Potential Revenue:

Deliver an expanded product set to customers of every size

Globalise Your Reach:

Without the capital expenditure on new infrastructure

Deliver Digital & Data Sovereignty:

Purpose-built, air-gapped in-country gateways

World-Class Tech Ecosystem:

Leading tech vendors in a single solution

Mitigate Financial Exposure:

PAYG options & flexible contract terms with no-to-low initial outlay

Re-Tech Promise:

Future-proofing innovations for the lifetime of your contract

BE unstoppable

Power Your Business, Empower Your Customers,

Scalability and Flexibility:

OMNIA's scalability and flexibility is simply unmatched! Drive your businesses growth and enable that of your customers, via scalable OMNIA modules or complete solution, with referral, reseller or white label options where you set your own margins.

Customer Satisfaction:

Meet customer need with affordable, reliable and advanced connection, protection, and detection seamlessly integrated, managed & supported by our experts as an extension of your team, ultimately fostering loyalty and creating multiple sales opportunities for your business.

Advanced Security Features:

Next-gen SASE, defence-grade data encryption protocols and real-time, AI-driven threat detection, OMNIA's advanced security frameworks safeguard you and your customers from the latest cyber threats, ensuring compliance and data integrity, whether on-prem, in a data centre or in transit.

Unparalleled Network Performance:

Built by the only company on the planet with 2 double MEF-accredited SD-WAN Subject Matter Experts, OMNIA's ATOMIUS SD-WAN delivers unparalleled peak network performance, even in the most demanding and remote environments.

Trust ATOMNIA as Your Strategic Partner

Your Referral Option:

Refer your customer to us – we supply the services; you receive an agreed referral fee for the life of the contract.

Your Reseller Option:

Contract ATOMNIA for services, OMNIA solution or modules, then resell them to your end customer

Build Your Own Option:

Use ATOMNIA services, OMNIA components or solution, then add in your own services i.e. connectivity, to create your own solution under your own branding

You Set Your Own Margins:

We guarantee margins you'll be happy because you can set your own!

Quick & Easy On-boarding:

Our team of experts will get you up and running fast

No Long-term Commitments & No Investment:

We offer flexible contract terms & payment options, many on a month-by-month basis, ensuring you're never out of pocket should your customer cease trading.
